Conflict Minerals Report

Qurate Retail, Inc. has included this Conflict Minerals Report as an exhibit to its Form SD for 2020 as required by Rule 13p-1 under the Securities Exchange Act of 1934, as amended, and Form SD (collectively, the "Conflict Minerals Rule"). The date of filing of this Conflict Minerals Report is June 1, 2021.

Unless the context indicates otherwise, the terms "we," "its," "us" and "our" refer to Qurate Retail, Inc. and its consolidated subsidiaries. As used herein, "3TG" is tantalum, tin, tungsten and gold, without regard to the location of origin of the minerals or derivative metals.

Forward-Looking Statements

This document contains forward-looking statements within the meaning of the federal securities laws. Any statements that do not relate to historical or current facts or matters are forward-looking statements. You can identify some of the forward-looking statements by the use of forward-looking words, such as "intend" and the like, or the use of future tense. Statements concerning current conditions may also be forward-looking if they imply a continuation of current conditions. Examples of forward-looking statements include, but are not limited to, statements concerning the additional steps that we intend to take to mitigate the risk that our necessary 3TG finances or benefits armed groups.

Forward-looking statements are subject to risks and uncertainties that could cause actual actions or performance to differ materially from those expressed in the forward-looking statements. These risks and uncertainties include, but are not limited to, (1) the continued implementation of satisfactory traceability and other compliance measures by our direct and indirect suppliers on a timely basis or at all, (2) the accuracy and reliability of the information we receive and (3) political, legal and regulatory developments, whether in the Democratic Republic of the Congo and adjoining countries (the "DRC Region"), the United States or elsewhere. The term "adjoining countries" has the meaning contained in the Conflict Minerals Rule. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of filing of this document. We do not intend, and undertake no obligation, to publish revised forward-looking statements to reflect events or circumstances after the date of filing of this document or to reflect the occurrence of unanticipated events.

Applicability of the Conflict Minerals Rule to Our Company

We own interests in subsidiaries and other companies that are primarily engaged in the video and on-line commerce industries. We are required to make a filing pursuant to the Conflict Minerals Rule for 2020 because some of our consolidated subsidiaries contracted to manufacture products in 2020 where 3TG was necessary to the functionality or production of such products.

However, most of our business activities are not in-scope for purposes of the Conflict Minerals Rule. Only our consolidated subsidiaries QVC, Inc. ("QVC"), HSN, Inc., Ballard Designs, Inc., Garnet Hill, Inc., Frontgate Marketing, Inc., and Zulily, LLC had in-scope products for purposes of the Conflict Minerals Rule in 2020. Our consolidated subsidiaries do not manufacture any products, and they do not contract to manufacture most of the products that they sell.

We do not directly source any 3TG from mines, smelters or refiners, and believe that we are in most cases many levels removed from these market participants. We therefore have limited influence over them. Furthermore, because of the depth, geographic diversity and constant evolution of our supply chain, and due to competitive factors, we often have significant difficulty identifying suppliers upstream from our direct suppliers. However, through the efforts described in this Conflict Minerals Report, we seek to ensure that we are in compliance with the Conflict Minerals Rule and that our suppliers meet the expectations of our Conflict Minerals Policy, which is discussed below.

Our Conflict Minerals Policy

We take seriously our compliance obligations under the Conflict Minerals Rule. Therefore, we have adopted and communicated to selected personnel, our suppliers and the public a policy regarding the supply of 3TG for products that we contract to manufacture (the "Conflict Minerals Policy").

The Conflict Minerals Policy includes, but is not limited to, our expectations that the suppliers of products that we contract with them to manufacture:

- Promptly, completely and accurately respond to our informational requests with respect to any 3TG that is necessary to the functionality or production of such products, including by completing and delivering a Responsible Minerals Initiative (the "RMI") Conflict Minerals Reporting Template (the "Survey") or similar survey when asked to do so.
- Determine whether there is any 3TG in any such products, survey their upstream suppliers regarding the ultimate source of any such 3TG, and verify and document such information.
- Implement policies and management systems to support compliance with these expectations, and require their upstream suppliers to do the same.

Our Conflict Minerals Policy is available on our website at [www.qurate.com/3TG](#).

This report is not intended to be used for any purpose other than to provide information to investors and other interested parties.
