1. Please provide information for investors to assess the probability of future goodwill impairment charges. For example, please disclose whether any of your reporting units are at risk of failing the quantitative impairment test or that the fair value of each of your reporting units are substantially in excess of carrying value and are not at risk of failing. If a reporting unit is at risk of failing, you should disclose:
 - the percentage by which fair value exceeded carrying value at the date of the most recent test;
 - the amount of goodwill allocated to the reporting unit;
 - a more detailed description of the methods and key assumptions used and how the key assumptions were determined;
